【Exhibition Profile】 | Chemical Equipment | Environmental Health and Safety Engineering |
| Composite Materials | Petrochemicals Applications |
| Plastics & Rubber Manufacturing Technology | Instruments |
| Food Safety Equipment & Automatic Testing |
| Precision Machine & Hardware Components |

【Advisor】 Economic Development Bureau, Kaohsiung City Government

【Organizer】 Economic Daily News

【Supporting Organizers】 Taiwan Composite Materials Industry Association
Taiwan Rubber & Elastomer Industries Association
Taiwan Plastics Industry Association
Petrochemical Industry Association of Taiwan
Taiwan Chemical Industry Association
Taipei Instruments Commercial Association

KIICE Intro

Kaohsiung International Instrument & Chemtech Expo 2015 was "Taiwan's largest instrument and chemtech exhibition. There were 300 exhibitors and 500 booths. Part of exhibitors were from the United States, Britain, Germany, France, Japan, Singapore, and mainland China. Economic Daily News and Kaohsiung Instruments Commercial Association set up a trading platform successfully for the industry, government, academia, research, and other units. This expo gathered ten thousands of visitors, hundreds of foreign buyers and ten millions of business opportunities during the two-and-half-day exhibition period, which broke a new record in Taiwan.

Petrochemical industry is an important industry for the economic development in Taiwan, especially 60% of the petrochemical industry is located in Kaohsiung. The manufacturing output was 14.4 trillion last year. The output value of the chemical industry as a whole accounted for 30% (4.3 trillion) of Taiwan's industrial output value. The petrochemical industry output value reached 2.02 trillion, accounting for about 15%. In recent years, the Kaohsiung City Government is actively promoting industrial restructuring and counseling on petrochemical industry to the high-value and low emissions. The petrochemical and industrial transformation and upgrading is imminent, including the improvements in maintenance, construction and management, strengthening of industrial safety, pipeline corrosion detection, leak and other fields, and the development of new saving raw materials, low energy consumption, low pollution and high economic value added products.

In order to present more chemtech and instruments exhibits and create more business opportunities for the industry in southern Taiwan, Economic Daily News holds Kaohsiung International Chemtech & Instrument Expo 2016 on September 23 - 26. The profile includes Chemical Equipment, Environmental Health and Safety Engineering, Composite Materials, Petrochemicals Applications, Plastics & Rubber Manufacturing Technology, Instruments, Food Safety Equipment & Automatic Testing, and Precision Machine & Hardware Components. The expo will focus on assisting exhibitors to open up overseas markets and improving industrial competitiveness. The product technology and image will also be promoted the by wide publicity. All related industry are welcome to join this event.

8 Main Expo Profile

Clear Topic! Accurate Procurement!

Chemical Equipment	Environmental Health and Safety Engineering	Composite Materials
Petrochemicals Applications	Plastics & Rubber Manufacturing Technology	Instruments
Food Safety Equipment & Automatic Testing	Precision Machine & Hardware Components	

Advantages of KIICE

- An opportunity and an advantage to meet with more than 2,500 manufacturers. There are up to 5,000 booths in the annual exhibitions held by Economic Daily News.
- Buyers can visit the manufacturing plants and the KIICE at the same time since they are in the same region. This will help create more potential business opportunities.
- Long-term development achievements of China Steel, Taiwan Shipbuilding, Chinese Petroleum Corp., China Petrochemical Development Corp., and other large enterprises make a solid industrial base and the strong industrial competitiveness in Kaohsiung. KIICE will be an optimal platform for exploring markets in Southern Taiwan.
- The organizer will invite public associations and foreign buyers to visit the KIICE. This will help market quality products in Taiwan and look for global development.
- KIICE will bring machine tool industry of Middle Taiwan and metal industry of South Taiwan together. This set off an absolute advantage for great business opportunities.
- There are well-designed exhibition spaces which is 27 meter high with column free in the South Hall of KEC, which is suitable for large-scale exhibitions.
- The advantage of aiming targeted audiences with professional media plan will be executed since Economic Daily News has been collected numerous buyers database.

Expo Venue

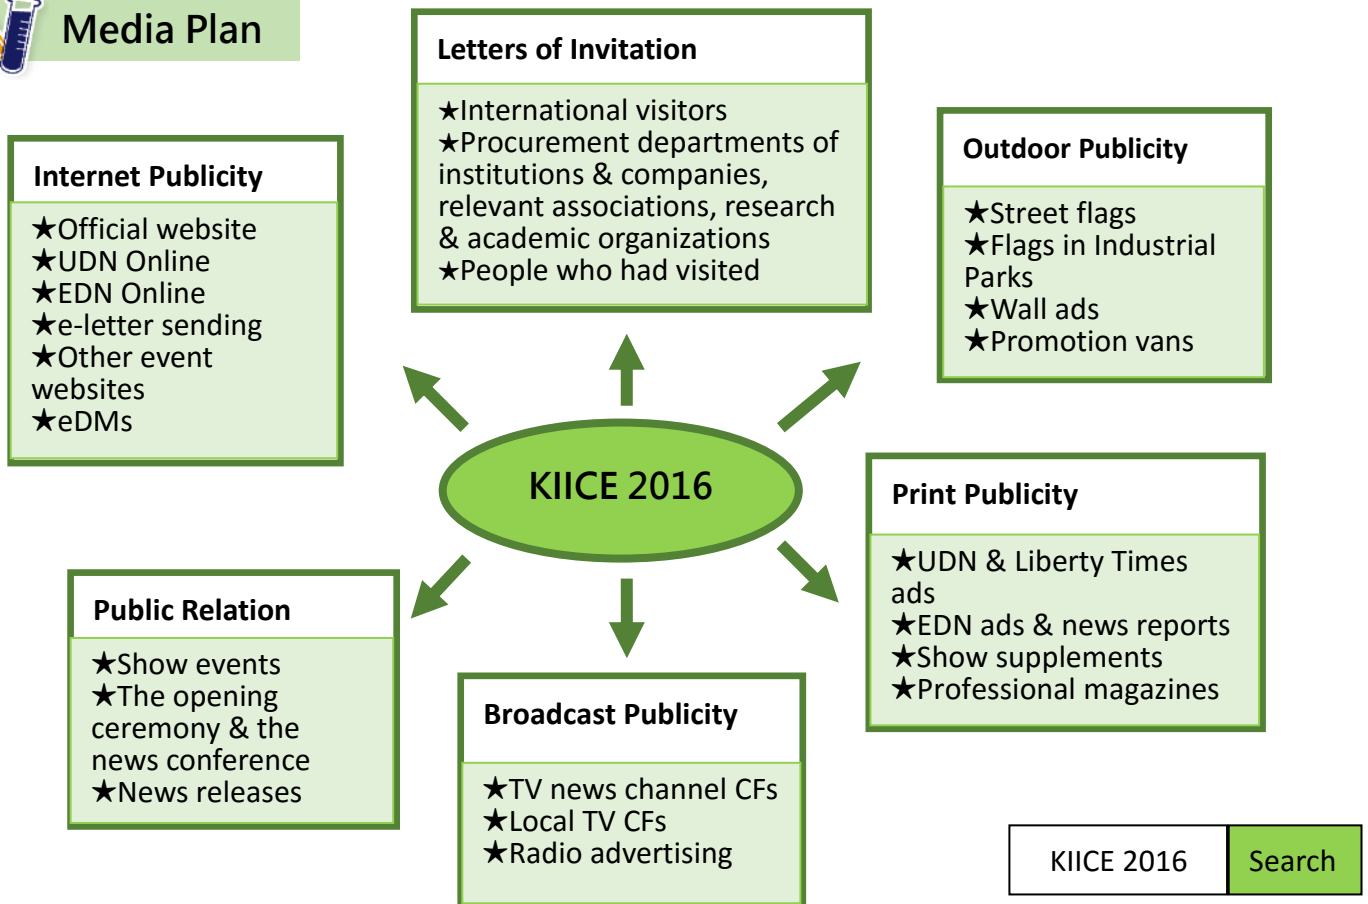

Kaohsiung Exhibition Center (KEC) boasts good location with convenient access to mass rapid transits, airport, and freeway, enabling visitors to reach the KEC via mass transportation systems or own car easily. There are 400 parking spaces in the KEC and 600 parking spaces around the KEC. [Map](#)

- **Mass Transportation** : Reach Kaohsiung Mass Rapid Transit (MRT) via high-speed rail/railway/airplane, take the MRT red line to R8 Sanduo Shopping District Station, leave from exit 2, turn right and walk along Xinguang Rd. (about 10 minutes), and turn left on Chenggong 2nd Rd. to arrive the KEC.
- **Bus** : Take bus Red 16 or 168 to Kaohsiung Exhibition Center stop. Shuttle buses from MRT Sanduo Shopping District Station to Kaohsiung Exhibition Center is available during the exhibition period.
- **Driving** : Take the Chungshan Freeway End Exit, turn right to Zhongshan Rd. in the direction of downtown area, turn left on Fuxing 3rd Rd., and turn right on Chenggong 2nd Rd. to arrive the KEC.
